MARKET RESEARCH → WHITE SPACE

TARGET GROUP

- Women aged 18-35 years
- Live in urban & metro cities
- Prefer athleisure clothing
- Fitness-focused, active lifestyle consumers
- Regularly engage in gym workouts, yoga, running, pilates or outdoor activities

KEY INSIGHTS

- Women want strong support without discomfort during workouts.
- Preference for multi-functional activewear that can be worn in gyms and casual wear.
- Adjustability is important for comfort and fit.
- Women find it bulky to wear bras under t-shirts
- Demand for more colours and stylish activewear.

PRIMARY RESEARCH

Interviewed almost 30 people of their target group and gained insights

PAIN POINTS

- Sports bras feel too tight and restrictive.
- Straps dig into shoulders during workouts.
- Difficult to remove after sweating.
- Wearing a bra under a T-shirt feels uncomfortable..

IDEAL CUSTOMER PERSONA

The Fitness Enthusiast

Profile: Women (20-28) who work out regularly and need high performance activewear.

Needs:

- Strong support during high impact workouts
- Comfortable and sweat friendly fabrics
- Activewear that stays in place during movement

Pain Points:

- Sports bras feel too tight or restrictive during workouts
- Difficulty finding a supportive yet comfortable bra

Athleisure Lifestyle User

Profile: Women (18-30) who wear activewear for both workouts and casual everyday wear.
Lifestyle: College, errands, coffee outings, work-from-home

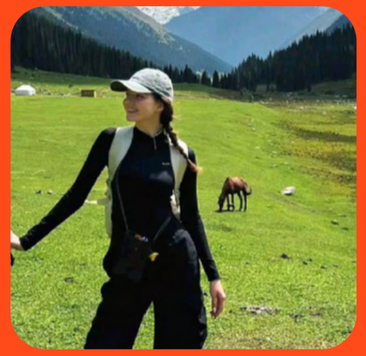

Needs:

- Stylish activewear that looks good outside the gym
- Comfortable clothing for all-day wear

Pain Points:

- Sports bras visible under tops and look too sporty
- Wearing separate bras under tees feels uncomfortable and restrictive
- Limited colour and design options

The Outdoor Activity Lover

Profile: Women (22–35) who enjoy outdoor fitness and adventure.

Needs:

- Secure support during movement
- Breathable fabrics for long hours outdoors
- Functional activewear for multiple activities

Pain Points:

- Lack of comfortable active swimwear options
- Bras that shift or lose support during movement
- Need to change outfits between activity and swimming

The Comfort-First User

Profile: Women who prioritize comfort but still want supportive and stylish activewear.

Needs:

- Soft fabrics with flexible fit
- Activewear that does not feel restrictive
- Easy everyday pieces

Pain Points:

- Bras that feel too tight after wearing for long hours
- Straps digging into shoulders
- Difficulty finding comfortable yet supportive activewear

WHAT THE BRAND SHOULD LAUNCH & WHY

Adjustable Sports Bra

- Adjustable according to intensity of workout
- Can be used for any activity

Product description

- Adjustable velcro straps for custom fit
- Velcro adjustable band for better support
- Front zipper for easy removal post workout
- Sweat-wicking fabric

In-built bra cuddle tee

- Daily wear
- Can be worn directly for swimming

Product description

- Cuddle tee with inbuilt padded support
- Designed for daily wear, swim and athleisure
- Soft stretch fabric with comfortable support
- Can be paired with activity skorts for a complete set

RISKS AND CHALLENGES

Risks	Description	Mitigation plan
Risk 1: Conversion rate lower than expected	Customers may like the product but not purchase at the expected rate due to price, unfamiliar features, or trust issues.	• Run A/B testing on pricing and messaging. • Use creator testimonials. • Launch with early: bird offers and bundles.
Risk 2: Repeat purchase rate lower than expected	The model assumes customers return for additional colours/styles, but actual repeat behaviour may be weaker.	• Introduce limited edition colors. • Loyalty rewards for second purchase.
Risk 3: Higher CAC than planned	Paid ads may become expensive, reducing profitability and slowing scale.	• Focus on influencer seeding and UGC. • Build referral programs. • Increase retention marketing (email, WhatsApp, SMS).

2.CAMPAIGN PLAN (ADJUSTABLE SPORTS BRA)

Problem Awareness Campaign

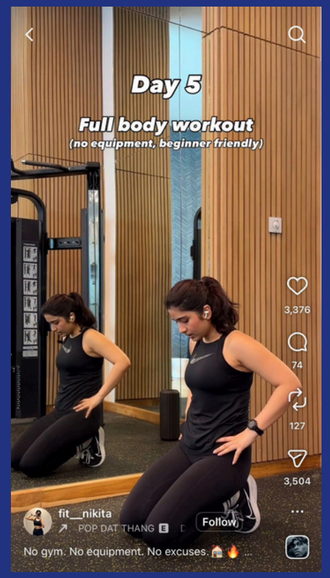

Visual:
Before/After image

Problem
- Tight sports bras
- Hard to remove
- Poor support

Campaign
#FixYourSportsBra

Influencer Workout

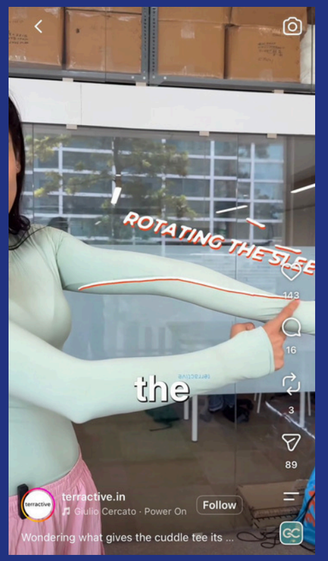

Visual:
Influencer doing workout

Campaign
#MoveWithTerractive

Execution
- Workout challenge
- Fitness creators
- Gym content

Product Feature Highlight

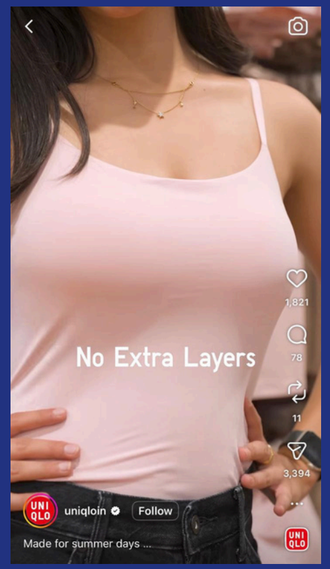

Visual:
Close-up product diagram

Callouts:
- Velcro and magnetic straps
- Adjustable band
- Front zipper

Message
“Support That Adjusts To You.”

3.CAMPAIGN PLAN (INBUILT PADDED CUDDLE TEE)

One Tee. No Bra

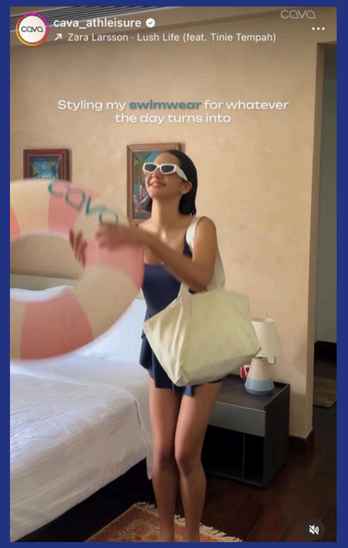

Message
"Skip the extra layer."

Execution
- Instagram reels showing morning routine: just one tee
- Influencers styling it for daily wear
- Comfort focused messaging

Purpose
Highlights the biggest consumer pain point: layering bras under t-shirts.

Swim Ready Tee

Visual Concept
Lifestyle transition reel.

Execution
- Poolside influencer content
- Travel creators wearing it at beach destinations
- Short reels showing casual to swim transitions

Purpose
Communicates unique product versatility.

3 Looks, 1 Tee

Core Idea
Styling versatility.

Visual Concept
Three different use cases.

Execution
Influencers create styling reels showing transitions.

Example caption
"At home, Relaxing to Brunch to Beach in one outfit."

Purpose
Positions the tee as athleisure and lifestyle wear.

PROTOTYPE AND VALIDATION

ADJUSTABLE SPORTS BRA

Positive feedback

Front zipper will make it much easier to remove after workouts.

It’s good that I can choose the amount of support I want.

Most sports bras give me the support but the tightness at the band is uncomfortable so the adjustable band is a good idea

Negative feedback

Velcro might wear out after some time

The straps would show under t-shirts since they are basically double-layered

The zipper might look bulky

PROTOTYPE AND VALIDATION

PADDED CUDDLE TEE

Positive feedback

Seems like a versatile top that could work for gym, casual wear, and swimming.

Looks like a comfortable alternative to wearing a bra under a t-shirt.

Travel friendly since it combines two garments in one.

Negative feedback

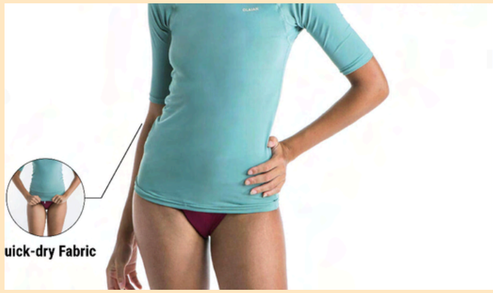

Some wondered if padding will be removable or fixed.

Unsure how much support the padding will actually provide.

Concern whether the tee will dry quickly if used for swimming.

FINAL LAUNCH RECOMMENDATION

WHY THIS SOLUTION

- Solves a Core Problem
- Higher Demand in Activewear
- Stronger Product Differentiation
- Better Alignment with Terractive's Core Category
- Stronger Competitive Gap
- Easier to market than explaining multi-use padded tees.

CHANGES AFTER FEEDBACK

- Making the straps velcro and magnetic for double security.
- Concealed zipper so that it doesn't show under t-shirts and tops.

WHY THIS PRODUCT WORKS

- Solves real sports bra pain points
- Customisable fit for different body types
- Easy removal post workout
- Designed for active women (18–35)

"SUPPORT THAT ADJUSTS TO YOU."

THANK YOU
